Our Philosophy

We know that home is the most important thing for every man, and that every home begins with a door. It opens and closes the intimate space, where we wish to feel happy and save. Our passion is to create such doors you will be opening and crossing it's every threshold with pleasure and joy in the most important place for you in the world - your home. Remaining among european leaders, we still wish to create good doors, that inspire. Verte doors collections are special Porta models selected for you.

We have 25 years of experience.

HOW TO MATCH DOOR TO THE STYLE OF THE INTERIOR?

MATCHING DOORS TO THE STYLE OF THE INTERIOR SEEMS LIKE QUITE A CHALLENGE. WHAT SHOULD BE CONSIDERED WHEN CHOOSING THE RIGHT DOOR FOR YOU?

Below you will find some solutions, which will give your living space a unified character and turn door selection into a joyful activity.

FIT IT TO DETAILS
Details make up the character of your apartment. Use them as a reference when choosing door accessories.

FIT IT TO LIGHTING
A room with no daylight access can be lighted up thanks to glass paned doors.

FIT IT TO STYLE
Each apartment can have its own style. Match the doors properly.

FIT IT TO FLOOR COLOUR
Floor is an important part of your interior’s decoration. Match the doors to the colour of your floor or go the opposite way and decide for a contrasting colour scheme.

FIT IT TO FURNITURE COLOUR
Furniture gives room its individual character and doors are a part of it. Match the door’s colour and structure to the furniture.
FRAME-AND-PANEL DOOR LEAVES
SOLID CONSTRUCTION

5 YEAR WARRANTY

Detailed terms and conditions for VERTE doors available at: www.vertedoors.eu/5year.pdf
excluding Verte BASIC and Verte BASIC PLUS

UNIQUE DESIGN

MATTE TEMPERED GLASS PANEL
ON-WALL SYSTEM FOR SLIDING DOORS

MODEL B5, DECOR VENEER, WHITE WALNUT

MASKING BEAM
ADJUSTABLE DOOR FRAME IN "TUNNEL VERSION"
RAIL WITH TROLLEYS
FENDER BEAM
DOOR LEAF IN SLIDING VERSION
A complete wall sliding door system consists of:
• wall mounted system
• sliding door leaf
• "tunnel" type door frame for the sliding system.

Wall system for sliding doors consists of:
• masking beam and fender beam made of chipboard and MDF
• rail with trolleys, complete with a shield
• sliding system is manufactured and delivered in the form of a set of elements to be assembled on the site.

A masking beam and fender beam are veneered with VERTE veneers (Decor, Dur, Cortex, Synchro 3D, Perfect 3D, Super Matt).

Rail with trolleys
• self-adhesive brush seal
• leaf guide (to be fitted to the floor)
• hook lock catch (option).

A sliding door system should be fitted in the rooms with finished walls (wall-paper, painting, glazing) and floors (parquet, lining, terracotta etc.).

The set is universal and its side is not determined. The opening direction can be changed by placing a fender beam on left or right side of a door frame in the "tunnel" version.

Not included in the price.

** Veneer with the woodlike structure effect

---

** ADVANTAGES **

- Easy to install and assemble
- Universal in design
- High-quality materials
- Durable and long-lasting
- Customizable options

** SPECIFICATIONS **

- Material: chipboard, MDF, veneer
- Dimensions: single door: 60, 70, 80, 90, 100
- Weight: 15 kg
- Maximum height: 240 cm

** INSTALLATION **

- Please follow the installation manual provided with the product
- Ensure all components are securely fastened
- Test the functionality before finalizing the installation

---

** CUSTOMIZABLE OPTIONS **

- Color and finish customization
- Size and shape customization
- Special order for custom designs

** RELATED PRODUCTS **

DOOR LEAVES CONSTRUCTION

VERTE BASIC, VERTE BASIC PLUS

DOOR LEAF CONSTRUCTION
The core of the door leaf is a honeycomb insert. The frame with core is covered on both sides with HDF boards. Both side edges and the upper edge of the leaf covered with leaf-colour skirting tape.

ACCESSORIES INCLUDED IN THE DOOR LEAF PRICE
- two pintle hinges as standard
- three hinges in a door leaf – size “100”
- lock: regular key, bathroom lock or adapted for door lock cylinder
- glass panel pattern: “chinchilla”

DIMENSIONS
- single door “60”, “70”, “80”, “90”, “100”
- double door “120” – “200”

NOTES
- Installation of a door frame should be carried out in rooms with completed walls (e.g. wallpapers) and floors (parquet flooring).

MODERN, OPTIMA

DOOR LEAF CONSTRUCTION
Rebated or non-rebated flat door leaves. Door frame is made of laminated softwood or MDF. 4 mm thick matte tempered pane, depending on the model. Stabilizing core of “honeycomb” type. Sides and upper edge of the door leaf is covered with skirting tape of the same colour. The unique design of SMART non-rebated door leaves allows their universal assembly (right or left).

ACCESSORIES INCLUDED IN THE DOOR LEAF PRICE
- 72 x 55 mm lock for regular key, bathroom lock or adapted for door lock cylinder, no opening drilled for the key
- 3 standard pintle hinges
- possibility of shortening

DIMENSIONS
- single door “60”, “70”, “80”, “90”
- double door “120” – “200”.

NOTES
- Possibility of matching door leaves of different sizes in double doors.
- Non-rebated door leaves fit in with adjustable non-rebated door frame, and SMART non-rebated door leaves fit in with SMART door frame.

VERTE A–N

DOOR LEAF CONSTRUCTION
Rebated or non-rebated frame and panel leaves. Construction frames and filling panels made of MDF. 4 mm thick matte tempered pane, depending on the model. Construction frames veneered along the perimeter; edges protected against moisture; upper frame printed using Touchwood method. The models are made as seal-less versions except for E and F collection. The unique design of SMART non-rebated leaves allows their universal assembly (right or left).

ACCESSORIES INCLUDED IN THE DOOR LEAF PRICE
- 72 x 55 mm lock for regular key, bathroom lock or adapted for door lock cylinder, no opening drilled for the key
- 3 standard pintle hinges
- possibility of shortening

DIMENSIONS
- single door “60”, “70”, “80”, “90”, “100”
- double door “120” – “200”.

NOTES
- Possibility of matching door leaves of different sizes in double doors.
- Non-rebated door leaves fit in with adjustable non-rebated door frame, and SMART non-rebated door leaves fit in with SMART door frame.
**DOOR LEAVES CONSTRUCTION**

**DOOR LEAF CONSTRUCTION**
Door leaf frame is made of laminated softwood. The filling is a solid core and a perforated chipboard reinforced with an internal plywood muntin. The frame filled with core is covered on both sides with HDF boards.

**ACCESSORIES INCLUDED IN THE DOOR LEAF PRICE**
- metal door frame
- stainless steel threshold (90 mm)
- 3 heavy duty pintle hinges
- anti-burglary pins
- eye-viewer (option)
- two door lock inserts
- preparation for shortening

**DIMENSIONS**
- single door “80”, “90”, “100”.

**DOOR FRAME**
Angle-bar metal door frame, with 80 mm wide profile, made of 1.2 mm thick sheet steel galvanized on both sides, powder coated in WHITE (RAL 9016), GREY (RAL 7047), CREAM (RAL 1001), BROWN (RAL 8028), Anthracite Structure (RAL 7024). The door frame is available for installation at the following levels: “0” and “-30” (to be cemented in the floor). Dedicated MDF door frame made of 44 x 100 mm profile. Door frame equipped with specially reinforced lock strikers and drillings for anti-thrust bolts. The door frame is covered with the same veneer as the door leaf.

**NOTES**

---

**DOOR LEAF CONSTRUCTION**
Door leaf frame is made of laminated softwood. The leaf core is a special structure based on chipboard reinforced with steel bars. The door leaf has sheathing made of special two-layer panel of aluminium sheet and HDF.

**ACCESSORIES INCLUDED IN THE DOOR LEAF PRICE**
- metal door frame
- stainless steel threshold (90 mm)
- 3 heavy duty pintle hinges
- anti-burglary pins
- eye-viewer (option)
- handle with plate and upper plate (silver)
- four-bolt strip lock with class C certificate
- 2 cylinders of class C (including doorknob).

**DIMENSIONS**
- single door “80”, “90”, “100”.

**DOOR FRAME**
Angle-bar metal door frame, with 80 mm wide profile, made of 1.5 mm thick sheet steel galvanized on both sides, powder coated in WHITE (RAL 9016), GREY (RAL 7047), CREAM (RAL 1001), BROWN (RAL 8028). The door frame is available for installation at the following levels: “0” and “-30” (to be cemented in the floor).

**NOTES**
- Accessories (fittings, threshold) packed with the door frame.
- A self-closer must be used with the smoke resistant doors to comply with the Building Code.

---

1 Maximum 60 mm.

watch the video: www.vertedzwi.eu/technologia.mp4
ADJUSTABLE DOOR FRAME

ADJUSTABLE DOOR FRAME CONSTRUCTION
Door frame consists of:
- construction frames made of chipboard and equipped with necessary fittings and accessories
- set of 80 mm wide architraves (Verte Collections) or 60 mm (Verte Basic and Verte Basic Plus Collections) cut at angle of 45°
- the door frame is manufactured and delivered in the form of a set of elements to be assembled on the site.

FINISHING
- door frame and architraves are coated with the same veneer as the door leaves (Decor, Dur, Cortex, Super Matt, Synchro 3D, Perfect 3D).

ACCESSORIES
- lock striker
- 2 or 3 pintle hinges in VERTE Basic and VERTE Basic Plus door frames (door frame part of the hinge)
- 3 pintle hinges in VERTE door frame (door frame part of the hinge)
- seal in colour matched to the door frame’s veneer
- fasteners.

ADDITIONAL SOLUTIONS
- “tunnel” type door frame to be used as a cover for the wall where door leaf is not supposed to come, or as an element of the sliding door system; it is equipped neither with a seal nor with a lock catch and hinges
- Combined door frame designed for large wall surfaces (up to 588 mm); it consists of a standard door frame and extra extension beam with a fastener
- Adjustment panel – this option allows to extend the width of a standard door frame (max. 460 mm) using an additional MDF panel; the available widths of extension panels: 80 and 160 mm
- door frame for double doors equipped with 6 hinges (door frame part of the hinge), without lock striker.

DIMENSIONS
- single door: “60", “70", “80", “90", “100”¹
- double door: any combination of the a/m dimensions.

NOTES
- The door frame should be installed in the rooms with finished walls (wallpaper, painting, glazing) and floors (parquet, lining, terracotta etc.).

WARRANTY YEAR 5
FIXED DOOR FRAME

FIXED DOOR FRAME CONSTRUCTION
Door frame consists of:
• construction frames made of MDF and provided with necessary fittings and accessories
• architraves and quarter rounds (supplementary option)
• the door frame is manufactured and delivered in the form of a set of elements to be assembled on the site.

FINISHING
• door frame, architraves, quarter rounds are veneered with the same veneer as the leaves (Decor, Dur, Cortex, Super Matt, Synchro 3D, Perfect 3D).

ACCESSORIES
• lock striker
• 2 or 3 pintle hinges in VERTE Basic and VERTE Basic Plus door frame (door frame part of the hinge)
• 3 pintle hinges VERTE door frame (door frame part of the hinge)
• seal in colour matched to the door frame’s veneer
• plastic holder protecting the frame’s underside against humidity
• fasteners.

ADDITIONAL SOLUTIONS
• Door frame for double doors equipped with 6 hinges (door frame part of the hinge), without lock striker.

DIMENSIONS
• single door: “60”, “70”, “80”, “90”, “100”
• double door: any combination of the a/m dimensions
• to be installed in an opening of min. 100 mm thick wall.

QUARTER ROUNDS
• dimensions: 12x22 mm, length: 2150 mm

ARCHITRAVES
• width – 60 mm (Verte Basic and Verte Basic Plus)
• width – 80 mm (Verte)
• sharp edges
• cut at an angle of 90°
• dimensions: “90”, “100”, “100+100”, “110+110”
• available options: a set for one side or single vertical architraves.

NOTES
• Technical Approval AT-15-5664/2012, ITB Warsaw.
• The door frame should be installed in the rooms with finished walls (wallpaper, painting, glazing) and floors (parquet, lining, terracotta etc.).
ADJUSTABLE DOOR FRAME
NON-REBATED

FIXED DOOR FRAME CONSTRUCTION
Door frame consists of:
• main beams: one horizontal and two vertical beams made of a wood-based material and equipped with the necessary hardware and accessories
• architrave 80 mm
• door frame is manufactured and delivered as a set of elements to be assembled on site.

FINISHING
door frame and architraves are coated with the same veneer as the door leaves (Decor, Dur, Cortex, Super Matt, Synchro 3D, Perfect 3D).

ACCESSORIES
• lock striker
• two sets of adjustable hinges 3D
• rubber sealing strip on the circumference of the door frame
• fasteners.

ADDITIONAL SOLUTIONS
• door frame for double doors equipped with 4 hinges, without lock striker.

DIMENSIONS
• single door: “60”, “70”, “80”, “90”, “100”
• double door: any combination of the a/m dimensions.

NOTES
• Technical Approval AT-15-5664/2012, ITB Warsaw
• The door frame should be installed in the rooms with finished walls (wallpaper, painting, glazing) and floors (parquet, lining, terracotta etc.).
• When making an installation aperture, hinge hooks should be taken into consideration, see Instruction.
• When preparing a door frame installation aperture, there should be done grooves/drillings in places of hinge sockets in the door frame
• Three hinges in the size “100” are required.

1 third 3D hinge is available at an extra charge

5 YEAR WARRANTY
UNIVERSAL NON-REBATED DOOR FRAME SMART

NON-REBATED DOOR FRAME CONSTRUCTION
Door frame consists of:
• construction frames made of MDF, foiled and equipped with necessary fittings and accessories
• door beam (80 mm wide), complete with auxiliary fixing beams
• panels to extend A and B range (optional).

FINISHING
• beams, architraves and panels are foiled with the same veneer as door leaves (Decor, Dur, Cortex, Super Matt, Synchro 3D, Perfect 3D).

ACCESSORIES
• adjustable lock striker
• 2D special adjustable hinges which allow smooth adjustment of gap at door leaf/frame contact plane (vertical)
• seal in colour matched to the veneer
• fasteners
• silver fittings.

DIMENSIONS
• single door "60", "70", "80", "90", "100".

NOTES
• The door frame is manufactured and delivered to the customer as a set of elements to be assembled on the site.
• The door frame needs to be approved for individual application.
• Universal non-rebated "SMART" door frame is dedicated exclusively to VERTE non-rebated door leaves collection.
• Hinge socket designed for 2D hinge.
• Two hinges for "60" – "80" size.
• Three hinges for "90" – "100" size.

For more details regarding the universal application of SMART door frame see: www.vertedrzwi.eu/smart.
VARIOUS WALL THICKNESSES? NO PROBLEM!

A REBATED DOOR LEAF DEDICATED TO THE FIXED OR ADJUSTABLE DOOR FRAME, see p. 40-41

A NON-REBATED DOOR LEAF DEDICATED TO ADJUSTABLE NON-REBATED DOOR FRAME OR UNIVERSAL DOOR FRAME IN SMART SYSTEM, see p. 42-43

*VERTE non-rebated door leaf is exclusively dedicated to SMART system. It does not fit other types of door frames.

* For VERTE in-wall sliding door system sizes $S_o$ and $H_o$ mean size of wall opening without metal casing.
ASSEMBLY DIMENSIONS OF DOORS

VERTE FORES AND VERTE STRONGER

KEY OF DIMENSIONS SIGNS

- $S_b$ – total leaf width, including rebates
- $H_b$ – total leaf height, including rebate
- $D_b$ – thickness of door leaf
- $S_o$ – width of wall opening prepared for door frame setting, measured from the finished floor level
- $O_s$ – clear width of the door frame
- $O_w$ – clear height of the door frame
- $S_k$ – width of door frame, door trims excluded
- $S_k$ – total width of door frame, including door trims
- $H_k$ – total height of door frame, including door trims
- $M_s$ – width of sliding door masking system
- $M_k$ – thickness of sliding door masking system
- $T_{sw}$ – permissible tolerance from width/height of wall opening
- $S_i$ – width of wall opening prepared for built-in cassette
- $H_i$ – height of wall opening ready for built-in cassette (measured from the finished floor level)

All dimensions – in millimeters [mm].
